We believe that we are the original, first, and inventors of the subject matter which is claimed and for which a patent is sought on the invention entitled "A Vibratory System For A Sorting Flow Cytometer", and

- as originally entitled " A Vibratory Unclogging Tool for Cytometer Nozzles" the specification of which was filed as United States Application Number 60/075,612, filed on February 20, 1998 (the "Original US Application"), and also
- as PCT Application Number PCT/US99/03638 filed on February 19, 1999, and designating the United States of America; this PCT Application being filed while the Original US Application was pending.

We hereby state that we have reviewed and understand the contents of the above-identified specifications, including the claims.

We hereby claim the benefit under Title 35, United States Code § 119, § 120, § 365 and otherwise of each of the above referenced foreign, United States and PCT patent application(s); there are no foreign applications having a filing date before that of the application(s) on which priority is claimed.

We acknowledge the duty to disclose information which is material to patentability as defined in Title 37, Code of Federal Regulations, Section 1.56(a). Further, insofar as the subject matter of any claims of this application was not disclosed in the prior United States or PCT International application I acknowledge the duty to disclose information which is known to be material to patentability as defined in Title 37, Code of Federal Regulations § 1.56 which became available between the filing date of the prior application and the national or PCT international filing date of this application.

We hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
